ATLAS
OF
MODERN GEOGRAPHY,

CONSTRUCTED

From the latest Observations

— and Discoveries —

for the

USE OF SCHOOLS

Bibliothèque,
Le Séminaire de Québec
Université de l'
Québec 4, QUE.

By

A. Arrowsmith,

Hydrographer to the King.

Coll. Ste Anne

1835.

London, Published by S. Arrowsmith, 10 Soho Square;

Sold also by E. Williams, No. 186, Fleet Street;

and by Whittaker & Co., Ave Maria Lane.

INDEX.

I. THE WORLD.
II. EUROPE.
III. England.
IV. Scotland.
V. Ireland.
VI. Denmark, Sweden and Norway.
VII. Rufsia in Europe.
VIII. Kingdom of the Nethe lands.
IX. France.
X. Spain.
XI. Germany.
XII. Switzerland.
XIII. North Italy.
XIV. South Italy.
XV. Turkey in Europe and Hungary.
XVI. ASIA.
XVII. Asia Minor.
XVIII. Syria.
XIX. Persia and Cabul.
XX. India and the Birman Empire.
XXI. East India Islands.
XXII. Pacific Ocean.
XXIII. AFRICA.
XXIV. North Africa.
XXV. Egypt.
XXVI. Cape of Good Hope.
XXVII. North AMERICA.
XXVIII. Canada and the United States.
XXIX. West Indies and Guatemala.
XXX. South America.

Note. *As the number of names in the Maps not in Roman Capitals is too great to admit of all being inserted by the Scholar in filling up the Outline, it has been thought advisable to underline a portion of the most important which have been selected from the rest as best calculated to impref's on the memory an estimate of Modern Geography. The names in Roman Capitals are comparatively so few in number, that with them the same plan has appeared not to be necef'sary.*

INDEX

TO

ARROWSMITH'S

Modern Atlas.

THE Ancients reckoned their FIRST MERIDIAN from the *Fortunate* or *Canary Islands*; but it has been found more convenient for the purposes of Comparative Geography, to adopt the Royal Observatory at *Greenwich* in their place.

The Longitudes in the following Index may be reduced to the Meridian of *Ferro* (the Westernmost of the *Fortunate Islands*) by adding them to its longitude—18° 10′ W.—when they are East, and subtracting them from it when West; thus,

Longitude from Greenwich of	Trebisonde - - -	39° 44′ E.
	Ferro - - - -	18 10 W.
Longitude of Trebisonde, from Ferro	- - -	57 54 E

Longitude from Greenwich of	Quebec - - -	71° 20′ W.
	Ferro - - - -	18 10 W.
Longitude of Quebec, from Ferro	- -	53 10 W.

James & Luke G. Hansard & Sons,
near Lincoln's-Inn-Fields.

INDEX.

In the second column, the * signifies South Latitude; in the third, it signifies West Longitude.
